INVERTER FAN

WITH **BLDC** TECHNOLOGY

OCECO[®]
Empowered eco solution.

OCECO FUTURE OF BLDC CEILING FAN

We all know that if we save energy today then tomorrow energy will save us. On the basis of this concept, we developed BLDC Fan which saves upto 65 % on your electricity consumption. We have a wide range of models to suit your home, schools, hospitals and industrial plants etc and the same can be operated either by the regulator or by smart remote control.

OUR VISION

To make a trusted & efficient product by constant innovations
to empower People and eco solution to environment

OUR MISSION

To replace inefficient & old technology
home appliances with our innovative & energy efficient product

3 YEAR^{*}
WARRANTY

ISO 9001 : 2015 COMAPNY

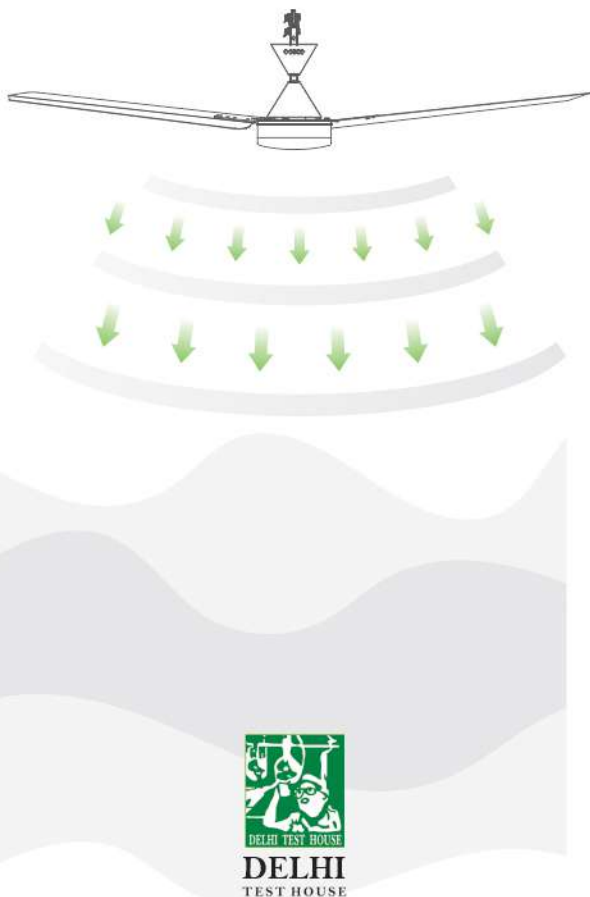

EXPANDED VIEW OF BLDC MOTOR WITH VARIOUS PARTS

ABOUT BLDC TECHNOLOGY

BLDC stands for Brushless Direct Current. BLDC motor has no mechanical brush for commutation of the windings. Commutation is deployed with the help of smart electronics. The input voltage provided is 230V AC which is converted to 24V DC by a SMPS. The fan runs internally at 24V and consumes just 28W at full speed.

ADVANTAGE

- Consistent performance even at low voltage and power fluctuation.
- Multiple speed control gives flexibility.
- No humming noise even at low speed.

POWER CONSUMPTION DIFFERENT SPEED

The power consumption* of the OCECO Fan varies with the speed at which it is set.

			WATTAGE (W)	RPM
	SPEED 1		3	105
	SPEED 2		7	185
	SPEED 3		10	230
	SPEED 4		17	290
	SPEED 5		28	355
	TURBO SPEED		34	380

The above specifications are for OCECO Fansio,
The above specifications may vary for different models
